To Whom it Concerns

Re: Letter of Reference

JRM Electrical Contractors of 5409 162A Avenue NW, Edmonton, AB were employed by SPSC (UK) Ltd on a sub-contract basis to provide the installation services of an AngelEye Drowning Detection System for our client the City of Edmonton during September and October 2018. The project was at the Peter Hemingway Leisure and Fitness Centre in the 50 metre pool.

The works consisted of the installation of containment and conduits, fitting bespoke hardware, installing network cabling, termination and modifying electrical circuits. JRM were also very much part of the final commissioning and testing, particularly the IT part of the system. The work was carried out to a very high standard and without the need for day to day supervision by our Technical Director. The client was very pleased with the works and the final handover procedures.

We were very pleased with all aspects of the sub-contract works carried out by JRM, their attention to detail and communication was found to be first class. I would have no hesitation in recommending this company to other employers who required similar skills, SPSC will certainly be employing their services again in the future.

Yours sincerely

Robert MD White
Managing Director
